

# Fleet & Asset Tracking

Innovative Antenna Systems for Fleet

Fleet Management intelligently increases productivity by expanding visibility, saving time, preventing the theft of assets, and most importantly, optimizing the customer experience. GPS/GNSS tracking will play a major role in the increasing productivity of Fleet and Asset Management and we at Airgain, designed our antennas to specifically meet the needs of Fleet Management.

Antenna Plus by Airgain provides custom antenna solutions for Fleet Management and Asset Tracking applications, including mass transportation, public safety, smart utilities, enterprise IoT fleets, and Mobile Resource Management (MRM). Airgain antennas include MIMO LTE, Wi-Fi, and GPS/GNSS which provide a level of security and efficiency needed to meet the demands of today's high-paced market.

Optimal MIMO Performance for 5G

Low Loss Cable Accessories

Compact & Robust UV Resistant Housing

Customizable Cables & Connectors

GNSS

Fast Custom Turnaround Time

Flexible Mounting Options

Full Outdoor Installation Ready

## Fleet and Asset Tracking Antennas

### CENTURION™ Next

Up to 9-in-1

Broadband 5G (600 MHz- 6 GHz) x 4,  
Wi-Fi 6 (2.4 GHz, 5.15-7.125 GHz) x 4,  
GNSS

### MULTIMAX™ FV

Up to 6-in-1

LTE/MIMO, Wi-Fi x 3, GNSS

### ULTRAMAX™ MIMO B

Up to 7-in-1

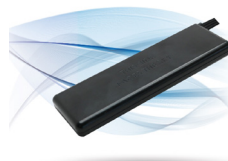

LTE/MIMO, Wi-Fi x 4, GNSS  
Built-in ground plane

### CENTURION™ Quad LTE

Up to 9-in-1

LTE/MIMO x 4, Wi-Fi x 4, GNSS

### ULTRAMAX™ Glass

4-in-1 Windshield mount  
LTE/MIMO, Wi-Fi, GNSS  
Low profile adhesive mount  
Ground plane independent

### ULTRAMAX™ B

Up to 3-in-1

Single LTE, Wi-Fi, GNSS  
Built-in ground plane
